

“Resources for COVID-19”

Introduction to the Virus Data

Tao Hu, Harvard University
Lingbo Liu, Hongqiang Liu and Jing Du, Wuhan University

Outline

- Data Sources**
- Data Processing**
- Data Integration**
- Data Depository**
- Data Cloud**
- Data Workflows**
- Sample Works for Data Analysis**
- Discussion**

“Resources for COVID-19” at Harvard Dataverse

Data Sources

- Base data:
 - China Data Institute, China Province and City Census Data with Comparable GIS Maps for Census 2000 and 2010.
 - China Data Institute, US State and County Census Data with Comparable GIS Maps for Census 1970, 1980, 1990, 2000 and 2010.
- Virus data:

Region	Source	Link	Start Date	Update
China	DXY	https://github.com/BlankerL/DXY-COVID-19-Data	1/14/2020	3/18/2020
US	USA FACTS The New York Times	https://github.com/nytimes/covid-19-data ; https://usafacts.org/	1/22/2020	3/29/2020
Italy	Department of Civil Protection	https://github.com/pcm-dpc/COVID-19	1/22/2020	3/28/2020
Global	John Hopkins University	https://github.com/CSSEGISandData/COVID-19	1/22/2020	3/28/2020

Data Classification

China

- China virus data by administrative units:
 - Province
 - City
- China virus data by categories:
 - Confirmed cases
 - Death cases
 - Recovered cases

USA

- US virus data by administrative units:
 - State
 - County
- US virus data by categories:
 - Confirmed cases
 - Death cases
 - Recovered cases

Global

Country virus data by categories:

- Confirmed cases
- Death cases
- Recovered cases

Data Processing and Integration: China

Base maps:

1. Merge the urban districts of Shanghai, Beijing, Chongqing and Tianjin of the prefecture city map
2. Recode those merged districts of Shanghai, Beijing, Chongqing and Tianjin of the city map

Virus data tables:

1. Assign GB code as in the base map for each city in the virus data table
2. Match those cities in the virus data table to those cities on the base map
3. Merge those county level cities or special regions in the virus table to match the city base map

OBJECTI	GbCity	City_CH	City_EN
1	1101	北京市辖区	Beijing (Districts)
2	1102	北京市辖县	Beijing (Counties)
3	1201	天津市辖区	Tianjin (Districts)
4	1202	天津市辖县	Tianjin (Counties)
5	1301	石家庄市	Shijiazhuang
6	1302	唐山市	Tangshan
7	1303	秦皇岛市	Qinhuangdao
8	1304	邯郸市	Handan
9	1305	邢台市	Xingtai
10	1306	保定市	Baoding
11	1307	张家口市	Zhangjiakou
12	1308	承德市	Chengde
13	1309	沧州市	Cangzhou
14	1310	廊坊市	Langfang
15	1311	衡水市	Hengshui
16	1401	太原市	Taiyuan
17	1402	大同市	Datong
18	1403	阳泉市	Yangquan
19	1404	长治市	Changzhi

Map merging:

1. Merge the virus data table with the province map by GB code
2. Merge the virus data table with the prefecture city by GB code

河南省: 济源市

湖北省: 仙桃市、潜江市、天门市、神农架林区

海南省: 五指山市、琼海市、文昌市、万宁市、东方市、屯昌县、定安县、澄迈县、临高县、保亭黎族苗族自治县、琼中黎族苗族自治县、白沙黎族自治县、陵水黎族自治县、昌江黎族自治县、乐东黎族自治县

新疆维吾尔自治区: 石河子市、阿拉尔市、图木舒克市、五家渠市、北屯市、铁门关市、双河市、可克达拉市、昆玉市、胡杨河市

Sample Map for the Virus Data of China

The Choropleth Map of Confirmed Cases as of March 27, 2020

Data Processing and Integration: US

- Retrieve the virus data by states from <https://usafacts.org/>

```
date,state,fips,cases,deaths
2020-01-21,Washington,53,1,0

Data Depository: dataverse.harvard.edu

Open source research data repository software

Researchers

Enjoy full control over your data. Receive *web visibility*, *academic credit*, and *increased citation counts*. A personal dataverse is easy to set up, allows you to display your data on your personal website, can be branded uniquely as your research program, makes your data more discoverable to the research community, and satisfies data management plans. [Want to set up your personal dataverse?](#)

Journals

Seamlessly manage the submission, review, and publication of data associated with published articles. Establish an *unbreakable link* between *articles in your journal* and *associated data*. Participate in the open data movement by using Dataverse as part of your journal data policy or list of repository recommendations. [Want to find out more about journal dataverses?](#)

Institutions

Establish a research data management solution for your community. Federate with a growing list of Dataverse repositories worldwide for increased discoverability of your community's data. Participate in the drive to set norms for sharing, preserving, citing, exploring, and analyzing research data. [Want to install a Dataverse repository?](#)

Developers

Participate in a vibrant and growing community that is helping to drive the norms for sharing, preserving, citing, exploring, and analyzing research data. Contribute code extensions, documentation, testing, and/or standards. *Integrate research analysis, visualization and exploration tools*, or other research and data archival systems with Dataverse. [Want to contribute?](#)

The screenshot shows a web browser window with the URL `dataverse.harvard.edu/dataverse/2019ncov`. The page title is "Resources for COVID-19 (China Data Lab)". The navigation bar includes "Add Data", "Search", "About", "User Guide", "Support", "Sign Up", and "Log In". Below the title, there are four category buttons: "Data", "Development Code", "News Report", and "Research Papers". A search bar contains the text "Search this dataverse..." and a "Find" button. The search results are displayed in a list format, showing 6 results. The first result is "Data (China Data Lab)" with a date of "2020-2-11". The second result is "Research Papers (China Data Lab)" with a date of "2020-2-11". The third result is "Workflows (China Data Lab)" with a date of "2020-2-11". The fourth result is "Web Sites (China Data Lab)" with a date of "2020-2-11". The fifth result is "News Report (China Data Lab)" with a date of "2020-2-11". A "Feedback" button is visible at the bottom right of the results list.

Discussion

Possible impacts of the following factors on the data accuracy:

- Changes in official standards for virus tests
- Changes in policies and regulations
- Changes in local leaderships

See "Policies and Regulations Timeline", <https://doi.org/10.7910/DVN/OAM2JK>

Possible impacts of the following factors on the spatio-temporal patterns:

- Economic linkages
- Migration
- Transportation
- Health facility
- Spatial distribution of population and business
